

Extended Fields - Bug #2314

Internal error on custom field with no value

13 Jun 2014 15:30 - Olivier Houdas

<b>Status:</b>	Closed	<b>Start date:</b>	13 Jun 2014
<b>Priority:</b>	Major	<b>Due date:</b>	
<b>Assignee:</b>	Andriy Lesyuk	<b>% Done:</b>	0%
<b>Category:</b>	Special column	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	0.2.4	<b>External issue:</b>	
<b>Redmine version:</b>			
<b>Description</b> <p>In our Redmine, there are some custom boolean fields which don't have a value. In this case, we get an internal error because of <code>extended_queries_helper_patch.rb</code>:</p> <pre>Completed 500 Internal Server Error in 1975.1ms   ActiveRecord::Template::Error (undefined method `value' for nil:NilClass):     53:      &lt;%=Rails.logger.info "issuenumber: " + issue.id.to_s%&gt;     54:      &lt;% inline_columns.each do  column  &gt;     55:        &lt;%=Rails.logger.info "column: " + column.name.to_s%&gt;     56:        &lt;%= content_tag 'td', column_content(column, issue), :class =&gt; column.respond_to?(:c ss_classes) ? column.css_classes : column.name %&gt;     57:        &lt; end %&gt;     58:      &amp;lt;/tr&amp;gt;</pre> <p>I have tried modifying line 27 of <code>/lib/extended_queries_helper_patch.rb</code> from</p> <pre>h(show_value(value))</pre> <p>to</p> <pre>unless value.nil?   h(show_value(value)) end</pre> <p>and it seems to work. What do you think of it?</p>
