<b>Redmine version:</b>			
<b>Description</b>			
<p>I have a custom field for issues, created using <b>rt_custom_field</b> plugin</p> <p>After installing <b>extended_fields</b> plugin, I am no longer able to modify custom fields created as <b>RT format</b>.</p> <p>It shows the same error message, as mentioned in <a href="https://github.com/uberamd/redmine_rt_custom_field/issues/3">https://github.com/uberamd/redmine_rt_custom_field/issues/3</a> : "Format is not included in the list"</p> <p>Any idea how to include these custom field formats that are NOT supported by extended_fields?</p>
