

Extended Fields - Bug #2319

Incompatible with rt_custom_field?

25 Jun 2014 17:48 - Seung Mun

Description I have a custom field for issues, created using rt_custom_field plugin After installing extended_fields plugin, I am no longer able to modify custom fields created as RT format . It shows the same error message, as mentioned in https://github.com/uberamd/redmine_rt_custom_field/issues/3 : "Format is not included in the list" Any idea how to include these custom field formats that are NOT supported by extended_fields?
