Description

Sorry for my english, I'm using redmine 2.6.0 with your plugin and i noticed something. I think images are better:

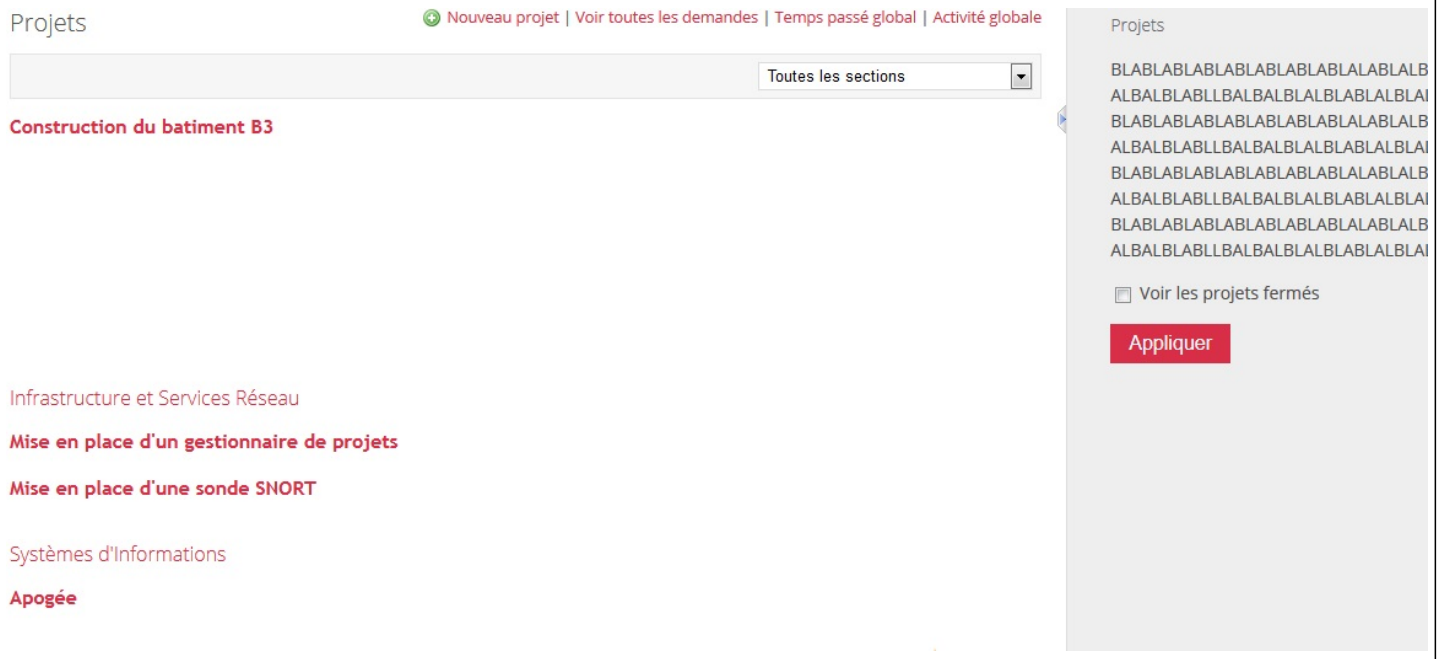

The screenshot shows the Redmine interface with a sidebar on the right. The sidebar contains a search bar, a dropdown menu set to 'Toutes les sections', and a list of projects. The projects listed are:

- Construction du batiment B3
- Infrastructure et Services Réseau
- Mise en place d'un gestionnaire de projets
- Mise en place d'une sonde SNORT
- Systèmes d'Informations
- Apogée

The sidebar also includes a checkbox for 'Voir les projets fermés' and an 'Appliquer' button.

And here the problem :

The screenshot shows the Redmine interface with a sidebar on the right. The sidebar contains a search bar, a dropdown menu set to 'Toutes les sections', and a list of projects. The projects listed are:

- Construction du batiment B3
- Infrastructure et Services Réseau
- Mise en place d'un gestionnaire de projets
- Mise en place d'une sonde SNORT
- Systèmes d'Informations
- Apogée

The sidebar also includes a checkbox for 'Voir les projets fermés' and an 'Appliquer' button. The sidebar content is shifted compared to the previous screenshot.

- Target version deleted (0.1.0)

I can't reproduce this. It may be related to the theme or another plugin.

I need more details, [Charline](#). Please try another theme and try disabling other plugins (e.g., the one, which allows to hide the sidebar), if possible.
