Redmine version:			

Description

There is a very nice and useful plugin:
Luxury Button (http://rmpplus.pro/en/redmine/plugins/luxury_buttons)

Unfortunetly, there is an issue with your plugin.

On page `lu_coordinates` at this plugin there is no included your main `wiking.js` file, but this code is trying to be executed:

```
<script type="text/javascript">
//
var wikiToolBar = new jsToolBar(document.getElementById('lu_button_user_description'));wikiToolBar
.setMoreLink('/plugin_assets/wiking/help/en/wiki_syntax.html');wikiToolBar.setHelpLink('/help/en/w
iki_syntax.html');wikiToolBar.draw();
//]]&gt;
&lt;/script&gt;</pre></div><div data-bbox="48 510 670 525" data-label="Text"><p>Effect is that JS stop execution with error and many element below on that site stop working.</p></div><div data-bbox="48 537 647 552" data-label="Text"><p>It would be great if you can talk with author of LuxuryButton plugin and resolve this issue.</p></div><div data-bbox="48 572 205 586" data-label="Section-Header"><h4>Associated revisions</h4></div><div data-bbox="48 589 360 603" data-label="Section-Header"><h5>Revision 87 - 25 Dec 2017 20:46 - Andriy Lesyuk</h5></div><div data-bbox="48 606 353 621" data-label="Text"><p>Checking for <code>setMoreLink()</code> before using it (#2351)</p></div><div data-bbox="48 643 360 656" data-label="Section-Header"><h5>Revision 90 - 30 Dec 2017 11:08 - Andriy Lesyuk</h5></div><div data-bbox="48 660 304 674" data-label="Text"><p>Refactored <code>jsToolBar</code> button code (#2351)</p></div><div data-bbox="48 697 360 711" data-label="Section-Header"><h5>Revision 91 - 30 Dec 2017 11:21 - Andriy Lesyuk</h5></div><div data-bbox="48 715 339 729" data-label="Text"><p>Moved <code>more_link</code> assignment to header (#2351)</p></div><div data-bbox="48 750 106 765" data-label="Section-Header"><h4>History</h4></div><div data-bbox="48 767 313 780" data-label="Section-Header"><h5>#1 - 08 Dec 2014 07:41 - Kovalevski Vasil</h5></div><div data-bbox="48 785 403 799" data-label="Text"><p>Hello. This error occurred not only for <code>luxury_buttons</code> plugin.</p></div><div data-bbox="48 797 932 822" data-label="Text"><p>In file <code>wiking_wiki_helper_patch.rb</code> you are using function <code>setMoreLink</code> (<code>wikiToolBar.setMoreLink</code>) which defined in <code>wiking.js</code>. Good, but for forms without layout and loaded via ajax there is no included this js file. Thats why error occurred.</p></div><div data-bbox="48 820 572 834" data-label="Text"><p>You are using inline js in html form, so, then you can use something like this in inline js:</p></div><div data-bbox="48 856 407 880" data-label="Text"><pre>if (!wikiToolBar.setMoreLink) { ..define.. }
.. call ..</pre></div><div data-bbox="48 902 647 917" data-label="Text"><p>Or use one more variable like <code>@heads_for_wiki_formatter_included</code> or something else more better.</p></div><div data-bbox="67 964 147 978" data-label="Page-Footer"><p>31 Oct 2020</p></div><div data-bbox="862 964 893 978" data-label="Page-Footer"><p>1/2</p></div>
```

- Status changed from New to Open
- Target version set to 1.1.0

#3 - 25 Dec 2017 20:48 - Andriy Lesyuk

- Status changed from Open to Incomplete
- Priority changed from Normal to Minor
- % Done changed from 0 to 50

I did not get, how can I make this work with LuxuryButton, to be honest. I was about to install that plugin and check, but discovered, that its installation procedure is awful and decided not to risk (its source code is not available anyway).

So, I ended up with checking for existence of setMoreLink() before trying to call it (in [r87](#)). This should resolve any other similar conflicts (with any other plugins too). But, this also means, that the More tool button won't be available in such cases...

As it's not a full fix of the issue, I'm leaving this bug open for the case, if someone (user(Vasil):skif?) can tell me, how to make it properly work with LuxuryButton.

#4 - 25 Dec 2017 20:59 - Andriy Lesyuk

- Target version deleted (1.1.0)

#5 - 30 Dec 2017 11:09 - Andriy Lesyuk

- Due date set to 30 Dec 2017
- Status changed from Incomplete to Closed
- Target version set to 1.1.0
- % Done changed from 50 to 100

I believe, [r90](#) should fix this issue.
