Fixes for Redmine 3.x: regexp fix and observer removal

History

#1 - 13 Mar 2015 13:09 - Adrian Antonana

Same problem here with ruby2.2.0 installed with rvm and redmine3.0.0

#2 - 21 Apr 2015 15:29 - Lukas Pirl

Is there any plan *when* to make the SCM-Creator plugin compatible with Redmine 3? Thanks!

#3 - 02 Jun 2015 09:37 - Damien R

I also tried to install the plugin on Redmine 3 with no success. Errors given by the installer are obscure to me. Is-it planned to adapt the plugin to futures versions of Redmine ?

#4 - 09 Jun 2015 10:30 - Lukas Pirl

Can you please post those errors if they are different from those in the issue's description?

#5 - 18 Jun 2015 18:53 - Lukas Pirl

It is caused by a missing gem.

Please add a Gemfile requiring rails-observers.

For those who have the issues described above, create the file Gemfile in the plugin's root directory, add the line gem 'rails-observers' and continue the upgrade procedure from bundle install … on.

#6 - 26 Aug 2016 15:05 - Andriy Lesyuk

- Status changed from New to Open

- Assignee set to Andriy Lesyuk

- Target version set to 0.5.1

#7 - 19 Dec 2016 18:20 - Andriy Lesyuk

- Subject changed from redmine 3 compatibility to Redmine 3 compatibility

- Status changed from Open to Closed

- % Done changed from 0 to 100

The observer was removed in r141, as observers are no longer supported by Rails 4 (and Redmine 3).
