Target version:	1.0.2		
Redmine version:		**External issue:**	

Description

Hello,

Will you be releasing a version of 'Hooks Manager' that's comparable with Redmine 3.0?

I'm seeing this error:

An error occurred while loading the routes definition of hooks_manager plugin (/home/app/htdocs/projects/plugins/hooks_manager/config/routes.rb): You should not use the `match` method in your router without specifying an HTTP method.
If you want to expose your action to both GET and POST, add `via: [:get, :post]` option.
If you want to expose your action to GET, use `get` in the router:
Instead of: match "controller#action"
Do: get "controller#action".

- /etc/rc.local failed with status 1

Thanks
Chris
