Description

Quick "Edit" link for the Wiki page, that is shown on the sidebar, would be very helpful:

The screenshot shows a form for editing a Wiki page. It includes a dropdown for 'Content type' set to 'Wiki page', a text input for 'Wiki page' with the value 'Forks' and an 'Edit' button, and a 'Location' section with a dropdown set to 'For URL:' and a text input containing the regular expression '/project(?:s|redmine)/issue-id(?:/repository)??'. At the bottom, there are 'Save' and 'Preview' buttons.
