

SCM Creator (+Github) - Bug #2420

Creating a Github repository fails

08 Mar 2017 02:19 - Mike Hagedon

Status: New	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version:	External issue:
Redmine version: 3.1.3	

Description

When I enable Github in the SCM Creator settings, the plugin seems to crash on a sudo-requiring action. I have sudo mode turned off. Any ideas on how to fix this, or at least get more of a stack trace?
