Description

Hello,
Do you think is it good idea to add option to collapse section and subsections?

Adam, not sure, considering, that it's possible to view single (sub-)section. Or, do you mean a link, that would allow to collapse all sections in the sections list?

Nice feature this mentioning! Is it your plugin also?

For example what I'm thinking about look here: https://getbootstrap.com/docs/4.0/components/collapse/#accordion-example

We love your plugin sections, because we have hundreds of projects, and because we are joining our companies with other we will have more of them Collapsing will make project sections more comfortable to use.

Yes, such mentions are implemented in my plugin WikiNG.

Ok, I got your idea about collapsing sections.
