Hi,

I have tried several commit messages, and am able to break all commits with a (malformed) "refs 2802" here:

```

I have patched this with

```
if id.present? && id.to_s.include?('')
```

and bypassed this issue.

However, our programmers don't always write uppercase, we need to change `issue_changeset_patch.rb(17)!`:

```
ISSUE_ID_RE = %r{[A-Za-z][a-zA-Z0-9]*-\d+}
```
