<b>Description</b>			
First of all - let me know if such kind of issue exists. If no - ok			
As I know Orangutan has aliases for Yes(Hyi) and No (Тщ)			
Would be great to have alias for "done" (вщты)			
Or we can here discuss what else very popular words can be aliased.

Also orangutang can use some system that can translate from any russian and ukranian keys to english ! I think it will be great !

- Priority changed from Normal to Minor
- Subject changed from How to fight with кириличним вводом to Alias "вщты" with "done"
- Start date deleted (13 Oct 2010)

Не думаю, що автоматична заміна усього кириличного тексту на латинський - хороша ідея... У такому випадку випадково введений (не у те вікно) "привіт" перетвориться на завдання "ghbdsn"...
